

Solar power generation for home and business

Overview

What is a residential solar generator?

Unlike commercial solar generators, residential solar generators are often more compact and portable and intended to power households. They are perfect for those who live in remote places without access to reliable energy or who require a backup power source in case of a power outage.

What is a commercial solar generator?

Commercial solar generators are intended to supply power to businesses, organizations, and communities. They are bigger and more powerful than home solar generators. They are perfect for people who want to produce power for businesses or those who need a bigger power source for their homes.

Why do you need a solar generator?

A solar generator ensures a backup power source during extended and annoying power outages or when the sun is not on your side. Solar generation is a huge asset to ensure energy security for your home. After all, a wise man once said precaution is better than cure. What is a Solar Generator?

.

What is a solar power generator?

A solar power generator is a portable power source that transforms sunlight-generated solar power into electrical energy using photovoltaic (PV) panels. Lighting, tools, and other forms of equipment can all be powered by the electrical energy that is kept in a battery.

Can mobile solar design & manufacture a solar generator?

Mobile Solar can design & manufacture solar generators and mobile power systems to fit most residential and commercial demands. View our line of

generators below. Our primary line of trailer-based solar generators. Built with high efficiency solar modules and industrial battery banks. Silent, efficient & durable. Additional solar – plug and play.

Can a solar generator be used as a power station?

A solar generator can supply energy anywhere, from any appliance, from fridges to laptops to fans. You can use solar generators as portable power stations during camping or source of home backup power during blackouts. There are several ways to deploy portable generators.
