

Submarine Energy Base Station

To Strive forward No Energy Waste

- ✓ All in one
- ✓ 100~215kWh
High-capacity
- ✓ Intelligent
Integration

Overview

Does Naval Submarine Base New London have a micro-grid?

GROTON, Conn. – Naval Submarine Base New London (SUBASE) officially marked the completion of a more than decade long initiative to ensure energy resiliency and cut a ribbon ceremonially establishing a Micro-grid on the base, Wednesday, October 23.

When was Naval Submarine Base New London built?

Naval Submarine Base New London was commissioned in 1916 as a dedicated submarine base. Due to the Japanese hostilities in China and the South Pacific in 1939 the US Congress approved plans for building submarine bases and seaplane bases at Dutch Harbor Alaska, Kodiak, Alaska, Midway Atoll, and Wake Island.

Was Mare Island a submarine base?

Mare Island, being a shipyard, also was not designated a submarine base. The community of New Suffolk, New York claims to be the first submarine base in the United States. The USS Holland was based at Hamlet's Holland Torpedo Boat Station, open from 1899 to 1905. Seven submarines built by the Holland Torpedo Boat Company were stationed at Hamlet.
