

Swedish energy storage container house

Overview

How many energy storage facilities are there in Sweden?

The opening ceremony for one of the 14 facilities was held in Eskilstuna. The Role of Energy Storage in the Energy Transition Since 2023, Ingrid Capacity and BW ESS have been working together on 14 large-scale energy storage projects strategically located within Sweden's electricity grid in price zones SE3 and SE4.

Where will Sweden's new energy storage facility be located?

The storage facility will be at a site in Forsmark, which is about 130 kilometers (81 miles) north of Stockholm. "We are doing this to take responsibility, both for the environment and people, but also for Sweden's long-term electricity production and Swedish jobs," Environment Minister Annika Strandhall said at a press conference.

Why should Sweden invest in energy storage?

"Sweden faces increasing electricity demand, which must be addressed by expanding carbon-free energy production, strengthening energy grids, and improving energy storage capabilities. It is an honor to inaugurate the largest energy storage investment in the Nordic region.
