61.44kWh

Overview

What is a tycorun battery swapping cabinet?

Tycorun's battery swapping cabinets are designed to support efficient and rapid battery exchanges for electric bikes and scooters. The company's technology includes automated systems for managing battery inventory, monitoring battery health, and ensuring seamless swaps.

How has tycorun contributed to the Advancement of battery swapping infrastructure?

Tycorun has contributed to the advancement of battery swapping infrastructure by providing reliable and scalable solutions. The company's innovations in battery management and swapping technology have supported the growth of the electric bike market and improved the accessibility of electric transportation options.

How many batteries can a lithium phosphate cabinet support?

It supports 48V/60V/72V lithium iron phosphate (LiFePO_4) and ternary lithium batteries. The 6-slot cabinet serves up to 15 users per day, often at smaller retail stores or mall entrances. It is highly flexible and supports dynamic parallel connection of multiple units.
