

The largest energy storage power station project in the Philippines

Overview

Located across over 3,500 hectares in Nueva Ecija and Bulacan, MTerra Solar will deliver 3,500 megawatts-peak (MWp) of solar power and 4,500 megawatt-hours (MWh) of energy storage once completed. Phase 1 remains on track for completion by the first quarter of 2026.

The largest energy storage power station project in the Philippines

Power plant profile: Kalayaan Pumped Storage, Philippines

Kalayaan Pumped Storage is a 796MW hydro power project. It is planned on Luzon river/basin in Calabarzon, Philippines.
