

Turkish battery energy storage system supplier

LFP 12V 100Ah

Overview

Who is Turkey's energy storage leader?

Shaping the Future of Energy Storage - Meet Turkey's Energy Storage Leader: Pomega! The company has meticulously designed its production processes to minimize environmental impact, adhering to the highest eco-efficiency standards.

How many battery production facilities are there in Turkey?

New facilities capable of producing up to 5 gigawatt-hours of cells and batteries will be established in Ankara, Istanbul, Izmir, and Kocaeli, Usta said, adding that agreements signed this year alone exceeded \$1 billion in investments. With these new additions, the total number of battery production facilities in Türkiye will reach 11.

Will Türkiye's battery and storage power plants be approved next year?

However, Usta noted that despite draft regulations, the legal framework for battery and storage power plants is still evolving. The first approvals are expected next year. Türkiye's battery imports remained steady at around \$1.1 billion, similar to last year.

Is Türkiye ready for a new battery industry in 2025?

Looking ahead to 2025, Usta predicted an influx of new companies, both domestic and foreign, joining the industry, a testament to Türkiye's potential for energy independence and global competitiveness. The association is set to host another battery summit in October next year.

Will Türkiye become a hub for battery technology?

Under the HIT-30 investment program, Türkiye seeks to become a regional hub for battery technology, with plans to build a capacity of 80 gigawatt-hours by 2030.

Will Türkiye get a battery approval next year?

The first approvals are expected next year. Türkiye's battery imports remained steady at around \$1.1 billion, similar to last year. Usta forecasted that exports would rise from \$39 million to \$48 million by the end of the year.
