

Tuvalu energy storage battery subsidies

Overview

Will Tuvalu achieve 100% renewables by 2030?

The pacific island nation of Tuvalu is on track to achieving its goal of 100% renewables by 2030, with the recent commissioning of a 500 kW rooftop solar project and 2 MWh battery energy storage system in it's capital Funafuti. Image: United Nations Development Programme Pacific Office.

What is Tuvalu doing with the ADB?

Tuvalu, an island country midway between Hawaii and Australia, has commissioned a new solar and storage project with the ADB, featuring a 500 kW on-grid solar rooftop array and a 2 MWh BESS in the capital, Funafuti. "The project is under the Pacific Renewable Energy Investment Facility and has a \$6 million support.

What is ADB's new solar project in Tuvalu?

"The project is under the Pacific Renewable Energy Investment Facility and has a \$6 million support. It is ADB's first for Tuvalu's energy sector," the ADB said in a statement. "The project also installed solar PV in the outer islands of Nui, Nukufetau, and Nukulaelae."

What is Tuvalu's energy policy?

Tuvalu commits to reduction of emissions of green-house gases from the electricity generation (power) sector, by 100%, ie almost zero emissions by 2025. Tuvalu's indicative quantified economy-wide target for a reduction in total emissions of GHGs from the entire energy sector to 60% below 2010 levels by 2025.
