

UAE energy storage project subsidies

Overview

What projects will be highlighted in the UAE?

Other projects that are likely to be highlighted include the planned 400MW battery energy storage system in Abu Dhabi and the seawater reverse osmosis facilities that are under construction or in the bid phase across the UAE.

What is the UAE initiative?

The UAE Initiative comprises key existing and planned projects from Abu Dhabi's energy sector that could drive total emission reductions of more than 29 million tonnes per year by 2030. These include: Two waste-to-energy plants in Abu Dhabi and Al Ain expected to help reduce 2.4 million tonnes of CO2 emissions. These clean energy initiatives alone.

Is Abu Dhabi committed to achieving sustainable economic growth?

H.E. Eng. Awaidha Al Marar, Chairman of the Abu Dhabi Department of Energy, reaffirmed that Abu Dhabi has been committed to leading the transition to renewable and clean energy in line with the UAE strategies to achieve sustainable economic growth over the next 50 years.

What is the UAE Energy Strategy 2050?

Aim of the UAE Energy Strategy 2050 The updated strategy aims to promote the deployment of renewable and nuclear energies, enhance energy efficiency, drive R&D and innovation in energy technologies, increase local clean energy capacity, and encourage investments in the country's renewable and clean energy sector.

What is the Abu Dhabi demand side management & energy rationalization strategy?

A notable initiative in this regard is the Abu Dhabi Demand Side Management and Energy Rationalization Strategy which DoE designed to addresses supply

and demand issues through a 9-programme multi-stakeholder approach that aims to reduce electricity consumption by 22% and water consumption by 32% by 2030.

Will Abu Dhabi's Green Hydrogen Policy start before cop28?

There is an expectation that the Abu Dhabi Department of Energy will issue the UAE capital's green hydrogen policy before the start of, or during, the Cop28 climate summit. If this happens, planned green hydrogen projects worth at least \$12bn could see rapid progress.
