

Villa solar photovoltaic panels

Overview

Where are solar panels made?

Designed in Switzerland, developed in Germany and manufactured sustainably. installed by experts. We have been sun worshippers from the very beginning – for over 40 years, we have been working to transform the clean and endless energy of the sun into sustainable electricity.

How many high-performance solar modules are in a listed apartment building?

49 high-performance modules cover 70% of the electricity consumption in a listed apartment building. Maximum independence and timeless beauty: photovoltaic system with Meyer Burger Black. First-class solar yield on the perfectly occupied roof surface of a home in northern Germany.

Why should you choose swct® solar modules?

Thanks to our in-house developed and patented Heterojunction/SmartWire technology (SWCT®), our solar modules achieve higher energy yields over the same area as modules with standard technology. As one of very few manufacturers, we have an IEC-certified module testing center.

Why should you choose a glass-glass solar module?

Energy that stands. Always the right choice, especially for visually demanding private rooftop installations. The white backsheet reflects light onto the solar cells for higher efficiency. The glass-glass module is bifacial and can absorb light from both sides. Stands strong. Our motto: Start strong and keep going.
