

What is the model of the Montenegro outdoor power supply

Overview

Can I use power plugs in Montenegro?

Select your country of residence, to check the compatibility of your power plugs in Montenegro. In Montenegro, power plugs and sockets (outlets) of type F are used. The standard voltage is 230 V at a frequency of 50 Hz. For more information, select the country you live in at the top of this page. We don't sell power plug adapters.

What is the standard voltage in Montenegro?

In Montenegro, the standard voltage is 230 V at a frequency of 50 Hz. The power sockets in Montenegro are of type F. The standard voltage is 230 V at a frequency of 50 Hz. Check your need for a power plug (travel) adapter in Montenegro.

What does a travel plug adapter look like in Montenegro?

When you are going on a trip to Montenegro, be sure to pack the appropriate travel plug adapter that fits the local sockets. But what do those electrical outlets look like?

In Montenegro, types C and F are the official standards. Like almost all Continental European countries, Montenegro has standardized on the German plug and socket system.

Do Europeans need a travel adapter in Montenegro?

Europeans do not need a travel adapter or transformer when traveling to Montenegro. Most device plugs will work with the outlet types in Montenegro. Also, the voltage in Montenegro is the same as in Europe. What Outlet does Montenegro Use?

Type C plug sockets are used in Europe, Africa and Asia. They have two round pins and no grounding pin.

Are plug sockets allowed in Montenegro?

Typically, type C plug sockets are not allowed to be installed in Montenegro: these outlets are not earthed and are therefore considered dangerous. Only type F power points are permitted because they are grounded and therefore significantly safer.

Do I need a power converter for Montenegro?

Whether you need a power converter for Montenegro depends on the voltage and frequency used in your home country. Montenegro uses a standard voltage of 230 volts and a frequency of 50 Hz. If your home country also uses 230 volts and 50 Hz, you will not need a voltage converter.
