

Which is the largest energy storage project in the Dominican Republic

Overview

This pioneering project, located in La Romana, comprises: A solar photovoltaic plant with an installed capacity of up to 78 MW. Battery Energy Storage System (BESS) with 30 megawatt-hour capacity. State-of-the-art infrastructure to strengthen the national power grid.

Which is the largest energy storage project in the Dominican Republic

WHERE IS AES ENERGY STORAGE LOCATED IN THE DOMINICAN REPUBLIC

Where is the port of Spain independent energy storage project located The project - a pioneer in the country and located in the Murcian municipality of Caravaca de la Cruz (Murcia) - ...
