Overview

What are the different types of wall structure alternatives for telecom equipment?

Our OutD series includes multiple wall structure alternatives for protecting telecom equipment in the best possible way, from a single-layer wall construction with light and cost-effective design to a multilayer construction designed for more demanding conditions. Delta's patented multi-point locks deny intruders entry to the cabinet.

Why is modular capability important?

Modular capability helps future proof your networks so infrastructure can easily grow over time. I consent to receive communications from Amphenol Broadband Solutions and understand that the information I provide will be used in accordance with the terms of the privacy policy.

What are the different types of battery backup cabinets?

Battery strings can be disconnected and moved with minimal to no network disruption. 12V Battery Backup (BBU) cabinets ideal when a large battery backup is required. Composite Pads (CPAD) have replaced poured-in-place or pre-cast concrete pads because they enable more rapid network deployment.
