

Which solar panel manufacturer ranks first

Overview

Jinko Solar is a leading global solar panel manufacturer and energy storage system integrator. Founded in 2006, the company has rapidly grown to become the world's largest solar panel manufacturer, with a strong track record of innovation, research, and development. What are the top solar panel brands in 2024?

February 13, 2024 - Today, SolarReviews released its annual solar panel brand ranking list, and Qcells has been crowned the top solar panel brand for the second year in a row! Details around the ranking list can be found [here](#), but here is a quick snapshot of the top 2024 solar panel brands:.

Why should you choose the best solar panel brands?

With the growing demand for renewable energy, solar panel brands have become an essential investment for homeowners, businesses, and industries. Choosing the best solar panel brands ensures high efficiency, durability, and long-term savings. With multiple brands available in the market, making the right choice can be challenging.

Who makes the most solar panels in the world?

GCL and DAS Solar share the eighth spot, and Risen Energy ranks tenth. According to InfoLink, the top 10 manufacturers shipped approximately 226 GW of modules in the first half of this year, an increase of 40% year-on-year. Jinko, JA Solar, Trina and Longi have occupied the top four spots since 2019.

Who makes the best solar panels?

Last but not least on our list of the largest solar panel manufacturers is the Sharp Corporation, founded in 1912. Sharp is another Japanese solar panel manufacturer and one of the best solar panels manufacturers and electronics corporations in the world.

Does bloombergnef's Tier 1 list assess the quality of solar panels?

BloombergNEF's Tier 1 list does not directly assess the quality of solar panels but rather the financial strength of the manufacturer. To be included in the list, a manufacturer must have supplied panels to at least six projects financed on a non-recourse basis by six different banks in the past two years.

Who makes the most solar modules in the world?

According to InfoLink, the top 10 manufacturers shipped approximately 226 GW of modules in the first half of this year, an increase of 40% year-on-year. Jinko, JA Solar, Trina and Longi have occupied the top four spots since 2019. The four manufacturers account for approximately 63% of the total module volume in this survey.
