

Winch Outdoor Power Supply

Overview

What volts do you sell electric winches?

Voltages vary between winches. We sell both 110 volt winches and 240 volt winches, so please make sure you select the correct operating voltage. We have the following electric winches for sale: Battery Powered Portable Winch/Hoist Pulling force 750kg. What are the different types of electric winch?

.

What is a powered winch used for?

Powered winches are often used to move large vehicles and boats that would be almost impossible to move using a manual winch. Whether you need a heavy-duty electric winch with loads of pulling power or a portable battery-powered winch that can travel around with you, we've got you covered. Voltages vary between winches.

What are the best electric winches?

Our ultra-powerful electric winches are built for extreme conditions with up to 18,000 pounds of capacity, and convenient wireless remotes. Check our top winches from Badland, including Apex and ZXR. Our ultra-powerful electric winches are built for extreme conditions with up to 18,000 pounds of capacity, and convenient wireless remotes.

How do I purchase an electric winch?

Here's our step-by-step guide to purchasing an electric winch: Click on one of the products above (for example, this electric vehicle winch). This will take you to the product page. Review your chosen product's details and, if you are happy with your selection, click 'Add to Basket'. Click on the 'Your Basket' icon at the top of our website.

What are some popular power-winch options?

The most popular power-winch options are Bush Winch and Bog Out. Other power-winch options use the vehicle's horsepower, not an electric motor. Cable clamps allow you to join two parts of a broken winch cable – not an ideal practice, but it may get you out of trouble.

How much power does a 12v winch take?

A 12V winch will take something like 40 amps to pull 500-600 lbs so the only way you can supply enough current is to wire it directly to the vehicle (or 2nd) battery and leave it installed. You can buy 25' long jumper cables for less than \$50 if you shop around.
