

Yard outdoor solar integrated machine

Overview

What is the Solar Powered Smart Yard?

The Solar Powered Smart Yard is a solar power shed that can charge electric tools. This remarkable joint venture by SunVilla and Suntek features solar panels and a new battery system to power electric yard tools and outdoor devices using sustainable energy.

What can the Solar Powered Smart Yard charge?

The Solar Powered Smart Yard is a remarkable joint venture by SunVilla and Suntek that can charge electric yard tools and outdoor devices. This storage shed has solar panels and a new battery system that uses sustainable energy to power these tools.

What is a solar-powered shed?

A solar-powered shed is a shed equipped with solar panels and a battery. The panels on the roof charge the battery using sunlight, which can then power electric outdoor equipment and devices. This product aims to provide sustainable and convenient outdoor solutions.

Does Sunvilla have a smart yard power station?

SunVilla has launched Smart Yard power station, a 6.4 kWh semi-solid state battery system with 3.8 kW of battery output and 100 W to 200 W solar modules mounted on a tool shed. The station is designed for charging electric appliances and storing lawn equipment.

What can the battery in the solar power shed power?

The solar power shed is equipped with a battery that can power electric outdoor equipment and devices. The panels on the roof enable the battery to be charged using sunlight. This product aims to provide sustainable and convenient outdoor solutions.

What is the output power of the Smart Yard?

The Smart Yard boasts an impressive 3.8 kW output, providing ample power for all your needs. It is equipped with a revolutionary semi-solid state battery system with a storage capacity of 6.4 kWh.
