

Zambia Solar Panel Project

Overview

The plant was developed by the Kariba North Bank Extension Power Corporation, a subsidiary of the . It was constructed by Power China International Group and financed through a mix of equity and debt. Stanbic Bank Zambia provided a loan of US\$71.5 million, while ZESCO and KNEPC each contributed US\$30 million in equity. The total investment for the first phase was approximately US\$100 million. The facility has an installed capacity of 100 MW and utilizes adva.

In a landmark development for Zambia's energy future, the country's largest solar initiative the Ngwenya Solar Project has officially reached financial close, unlocking over \$100 million in funding and setting the stage for a 100-megawatt (MW) solar farm that will power thousands of homes, reduce pressure on the national grid, and diversify Zambia's energy portfolio.
